

On April 20, 2026, Corteva celebrated an exciting milestone: 100 years of Pioneer, our flagship seed brand. We want to include you in our celebration by sharing this commemorative Pioneer 100 metal sign for your office.

One hundred years ago, Henry A. Wallace and the founders of Pioneer revolutionized farming with commercial hybrid seed corn and their ground-breaking approach to breeding, product development and farmer sales. Their vision to bring the highest-yielding seeds to farmers and provide helpful information to improve productivity and profitability built a legacy that continues to drive Corteva's innovation around the world today.

We are proud of our heritage and the contributions that our team members make every day in communities around the world to achieve our company's purpose to enrich the lives of those who produce and those who consume, ensuring progress for generations to come.

It is an honor to partner with you to support farmers and the agricultural innovation necessary to meet the challenge of producing a safe, sustainable food supply for a growing global population. We share the goals of improving farmer productivity and profitability, building strong communities and ensuring a nutritious food supply while protecting natural resources for future generations.

Thank you for all your support and we look forward to continuing a strong partnership in our second century.

Sincerely,

Judd O'Connor
Executive Vice President, Seed Business Unit
